## **eTWINNING ANNUAL CONFERENCE 2016**

### **eTwinning and Digital citizenship**

#### **Conference Programme**

*Digital Citizenship is a concept for our age, a world where most people have an identity and life in the online world, as much as they have in real world. Digital Citizenship is a broad concept that explores how best we should act in this online world, what we need to be aware of and of course what are our rights and responsibilities.*

*eTwinning is the Community for schools in Europe which has reached 390,000 teachers and growing. eTwinning offers a means to teachers to educate their pupils in preparation for their full participation in a connected society where everyone can play a role beyond the boundaries of their local environment.*

*The focus of the conference is to explore together how to raise the capabilities of the schools of today to be prepared for the challenges of the fully digital society of tomorrow.*
