2. Conditions for granting scholarships for postgraduate studies or research

These scholarships are aimed at graduates of higher education institutions who wish to undertake postgraduate studies or research work at higher education institutions or research Centres in Greece.

In order to conduct research, grant-holders must be enrolled in a doctoral or postgraduate degree in their country of origin. In the case of a postgraduate or doctoral programme in Greece, the commencement of studies is the same as when the grant was awarded. It is noted that the above procedure does not include medical specialization.

The scholarship is granted only during the academic year for which it is being awarded.

The above scholarships are not renewed for more than one (1) year for postgraduate studies and two (2) years in case of a doctoral degree.

For the renewal of the scholarship, the grant-holder applies to his/her country of origin, which is competent to propose the renewal of his/her scholarship to the Higher Education Directorate/Directorate of Organisational and Academic Development/Department D' of Student Affairs and Scholarships, Ministry of Education, Research and Religious Affairs within one (1) month from the submission of the application by the grant-holder.

An application for renewal is also submitted to the Directorate of Organisational and Academic Development/Department D' of Student Affairs and Scholarships, Ministry of Education, Research and Religious Affairs, by the relevant grant-holder.

Throughout the duration of his/her scholarship, the grant-holder is obliged to remain in Greece and be dedicated exclusively to the completion of the programme of studies as submitted and approved when awarding the scholarship. Candidates for postgraduate studies in Greece should **have a good knowledge of the Greek language (unless the postgraduate programme is taught in English) and have been admitted in a postgraduate course.**

Candidates for research should have a **good knowledge of Greek, English or French.**

3. Conditions for granting scholarships for undergraduate studies

Grant-holders who are going to complete a full-time undergraduate course in Greece are initially awarded a scholarship for one (1) academic year in order to attend Greek language courses (if they do not already have a language certificate). In the event of a failure in the examination for the knowledge of the Greek language, the scholarship is interrupted, while in case of success a scholarship is granted for a full course of undergraduate studies, which will be renewed each year.

Throughout the duration of his/her scholarship, the grant-holder is obliged to remain in Greece and be dedicated exclusively to the completion of the programme of studies as submitted and approved when awarding the scholarship. The absence of up to two (2) consecutive months during the summer is justified. If the grant-holder is absent for a period longer than the above period, he must inform the Department of Organisational and Academic Development/Department D' of Student Affairs and Scholarships, Ministry of Education, Research and Religious Affairs, of the reasons for his/her absence.

During the first year of his/her stay, the grant-holder is placed in a Higher Education Institution, according to the preference list he has completed in his/her scholarship application (see (a) Supporting documents for undergraduate studies). The application has the validity of an affidavit. It is allowed to change the Department/School with a new application of the grant-holder in our country, only during the year of learning the Greek language.

It is noted that after the first year of successful attendance of Greek language courses, the grant-holder will submit in person the necessary supporting documents for registration in the Department of his/her choice. For this reason, he must hold certified copies of all the original and translated documents submitted for the award of the scholarship.

A scholarship for undergraduate studies is granted for a period equal to the normal attendance, as provided for in the programme of studies of the School/Department of

Higher Education. The grant-holder is entitled to apply for an extension of his/her scholarship up to one (1) year in addition to the aforementioned time period. The application is submitted from May to the end of June in the Department of Organisational and Academic Development/Department D' of Student Affairs and Scholarships, Ministry of Education, Research and Religious Affairs. In order to approve or reject a renewal request, the full academic record of the grant-holder, which s/he must submit with his/her application, shall be taken into account.

Our Agency grants a scholarship until the month of the graduation ceremony, in case the student completes his/her studies during the minimum length of studies. In cases where the student exceeds compulsory attendance period, the scholarship is granted only until the date of completion of the obligations arising from his/her programme of studies, and not until the graduation ceremony.

Each grant-holder is obliged to submit to the Directorate of Organisational and Academic Development/Department D' of Student Affairs and Scholarships, Ministry of Education, Research and Religious Affairs, at the end of each examination period, a detailed study certificate ("transcript"), which shows that has completed a sufficient number of courses, according to the programme of studies of the School/ Department which he/she is attending. In case of unsatisfactory progress, the scholarship is not renewed. In particular, satisfactory performance means the successful examination of at least 70% of the compulsory or elective courses provided by the programme of studies of the Department or of the School.
