- 8- Badminton

These courses aim to increase of the level of the social,cultural abilities of the trainees, to teach how to write and read to illiterate adults, to prepare students to the higher education schools, to share cultural values by building a bridge from past to new generations.

Even preschool courses service to very young individuals.

External Activities

These activities create opportunities to the individuals to develop their skills in fine arts and cultural themes. Hey also give the opportunity to learn and trade cultural values not only locally but also regionally and nationally.

Where these courses take place ?

In the building of Public Education Center

In the villages

In the Education rooms

In the prisons and the reformatories

Hospital with rehabilitation

In the buildings of public or private companies

In the schools

Who can take part in these ?

Everyone in the any age.

No cultural, social situation is limited.

Children under the age of 18, can take part in with the permission of their parents.

Primary school students can take part except school times.

Trainees are awarded with a participation or success certificate.

Individuals with need of special care are approached not emotionally but realistically. They are to create something and learn something in the courses. They take part in social activities.

What role do Public Education Center play in LLP?

In the LLP that contains formal and mass education, PEC has a wide and important role. PEC creates an opportunity to everyone to take part in the LLP deliberating “In everywhere, in every time, for everyone”.

In the globalization, “the family” has got the most damage therefore, violence in the family has a negative reflection on the society. As a social responsibility, PEC take care the issue of family.

PEC also has an important role to bring pre-school education to children at the ages of 0-6 without separating them in their near surroundings. PEC

has special programs on this issue as;

Mother-Child Education programs

Father Supportive programs

These collaborate with UNICEF and MCEF (mother –child education foundation)

PEC role in non formal primary and high school educations

PEC has the role of consulting to these programs while supporting books, dealing with the registrations and affairs of students.

Those who are out the formal education for some reason can develop themselves by taking part in these programs.

Nostalgia Museum

By this project, to build a bridge between past to contemporary is aimed.

Local people bring their old fashioned tools and goods to show new generation what it is or how it is made. These tools and goods are demonstrated in a-nearly 150-year-old historical house in Boyabat. A nostalgia museum has been existed in this way.

Collaborating with Boyabat Municipality, about 1500 people have visited the museum.

In the poster you can see Nostalgia Museum.

PEC welcomes any international partner for EU projects.
