**Starting date of the event:** 11/11/2019**Ending date of the event:** 13/11/2019**Event venue (city, country):** Helsinki, Finland, venue to be confirmed**Working language:** English (intermediate or advanced level)**Number of places in total:** 70

**Profile of participants:**

The seminar is open to participants within all fields of vocational education

- VET Schools (teachers, principals, international coordinators)
- Representatives of companies, chambers, training centres
- Developers of vocational education

Pre-selection of the participants is to be made by NAs. The final selection of participants will be confirmed by the organizing NA.

**Themes and goals of the event:**

A project incubator is a new approach to the traditional contact seminar with a greater focus on developing both the content and format of cooperation in the new project. The event would incorporate methods of co-creation and experimentation, as well as peer review of the project ideas and the plans. The themes are e.g. personalization, learning environments, new role of teachers and digitalization. The seminar will gather 70 professionals within vocational education from different European countries. This is a chance to create new partnerships and project ideas supported by National Agency staff.

Participants are invited to share good practices from different countries, identify challenges and discuss possible solutions regarding the future of VET.

**Programme of event:**
